Dr Jesse Pasternak

Dr Jesse Pasternak is a Canadian endocrine surgeon specializing in the surgical management of thyroid, parathyroid and adrenal tumors. He is currently based at the University of Toronto in Ontario Canada. After obtaining his undergraduate degree at McGill University in Montreal Canada, he completed his medical school and residency at McMaster University in Hamilton. He then moved to San Francisco, California where he trained as an Orlo Clark Fellow in Endocrine Surgery and Oncology at UCSF. Dr Pasternak also completed a master's degree (MPH) at Harvard University with a focus in epidemiology. As a surgeon at the Toronto General Hospital, his clinical focus is minimally invasive endocrine surgery. As a researcher, he studies clinical endocrine surgery and health outcomes and collaborates extensively internationally for research and teaching. He has been a member of the International Association of Endocrine Surgeons since he was a surgical resident and is dedicated to its goals of enriching the field of Endocrine Surgery internationally.
