Dr. Paul Gauger is the Norman W. Thompson Professor of Surgery and Head of the Division of Endocrine Surgery at the University of Michigan. He trained in General Surgery at the University of Michigan and completed fellowships in Extracorporeal Life Support and Surgical Critical Care. He then served as the T.S. Reeve Fellow in Endocrine Surgery at the Royal North Shore Hospital in Sydney, Australia before joining the faculty of the University of Michigan in 1999.

Dr. Gauger specializes in the treatment of benign and malignant diseases of the thyroid, parathyroid, and adrenal glands. He also specializes in the treatment of endocrine tumors of the pancreas and intestines as well as Multiple Endocrine Neoplasia Syndromes.

Throughout his career, Dr. Gauger has been deeply involved in educational leadership and Graduate Medical Education issues. He served as the Program Director for Surgery and the Director of the Norman W. Thompson Fellowship in Endocrine Surgery. He was also the Associate Chair for Education in the Department of Surgery and founding Executive Director of the University of Michigan Clinical Simulation Center. He currently serves Michigan Medicine as the Ambulatory Care Clinical Chief for Surgery.

Research interests include intraoperative parathyroid hormone monitoring, management of Multiple Endocrine Neoplasia syndromes, and adrenal imaging and surgery. Research interests also include simulation and surgical skill development, proficiency-targeted skill curricula and assessments, measurement of Professionalism, and optimal adaptation to duty hour regulation and other changes in surgical residency training.
